

## Certificate in Lean Sigma White Belt

**Overview:** *The Lean Sigma White Belt is an introductory class into the terms and concepts of Lean Sigma. This class teaches the student the basic knowledge needed to begin the process of working on a Lean Sigma Green or Black belt team. This training is for anyone that wants to learn about Lean Sigma and may enter as a new team member.*

**Certificate Duration:** 24 hours

**Program Tuition:** \$1,080.00

**Books:** \$45.00

**Prerequisites:** None

### **Certificate Requirements:**

**2200-4** Lean Sigma White Belt Champion

#### **2200-4 Lean Sigma Yellow Belt Champion**

*The Lean Sigma Yellow Belt works to support projects by reviewing process improvements that can support the process. This class teaches the student the role and concepts of being a Yellow Belt. As a Yellow belt is still relatively new to the Lean Sigma program the class will reinforce concepts needed to grow and become a more efficient team member. The class will review terms and work on cases keeping in mind the student is in a support role at this level.*

**Prerequisites:** *This class has no formal prerequisites. The student should have 1 years' experience in the work place.*
