

Certificate in Lean Sigma Yellow Belt

Overview: *The Lean Sigma Yellow Belt works to support projects by reviewing process improvements that can support the process. This class teaches the student the role and concepts of being a Yellow Belt. As a Yellow belt is still relatively new to the Lean Sigma program the class will reinforce concepts needed to grow and become a more efficient Team member. The class will review terms and work on cases keeping in mind the student is in a support role at this level.*

Certificate Duration: 32 hours

Program Tuition: \$1,440.00

Books: \$45.00

Prerequisites: None

Certificate Requirements:

2200-3 Lean Sigma Yellow Belt Champion

2200-3 Lean Sigma White Belt Champion

The Lean Sigma White Belt is an introductory class into the terms and concepts of Lean Sigma. This class teaches the student the basic knowledge needed to begin the process of working on a Lean Sigma Green or Black belt team. This training is for anyone that wants to learn about Lean Sigma and may enter as a new team member.

Prerequisites: *This class has no formal prerequisites.*
